MY BIOGRAPHY:

I'm a Full Stack web developer based in Valencia, Venezuela, with a speciality in Front End Development . I possess a vast array of knowledge in many different front end , back end and desktop languages, responsive frameworks and databases management systems. My objective is simply to be the best web developer that I can be and to contribute to the technology industry.

Although I'm very familiar with using frameworks, my websites are primarily hand-coded using :HTML5, CSS3, Bootstrap, JavaScript: React, Redux, Angular & Jquery, for FrontEnd, and NodeJS, Express for Backend with a strong emphasis on "Progressive Enhancement", I look for creative ways to push the boundaries of website development without compromising on browser support while following best code practices.

In a quest for always keeping myself updated, I read books and attend seminars & meetups.
